## Skills

---

**Front End** - JavaScript, React, Bootstrap, MaterializeCSS, jQuery, CSS3, HTML5, Moment.JS

**Back End** – Node.js, Express, MySQL, Sequelize, Passport.js, AJAX, MongoDB, Mongoose

**Developer Tools** – Github, npm, Postman, AWS JawsDB, Heroku, Firebase

## Applications

---

**My College App** | Web App for researching and documenting Colleges | <https://morning-dawn-13739.herokuapp.com/>

- Authenticated user signup with Passport.js and Mongoose.
- Designed the layout of the app through the React framework.
- Optimized team workflow by setting up a group kanban board to schedule tasks and fix bugs.

**Civitas** | Social Platform for users to connect based on Health Education | <https://gittastic-project-2.herokuapp.com/>

- Designed front-end using MaterializeCSS design theme.
- Established an email messaging feature using Nodemailer.
- Used Sequelize to authenticate login information in a MySQL database.

**2020 Vision** | Database of US Senators and their campaign contributions | <https://rcrevealing.github.io/project-one/>

- Dynamically displayed campaign contributions data, of all 100 US Senators, into pie charts using CanvasJS.
- Utilized AJAX to make API calls from multiple Propublica databases.
- Collaborated with team members to resolve and merge git conflicts and bugs that occurred during development.

## Work History

---

### Courier

November 2015 - Present

*Fedex Express, Boston, MA*

- Safely operate a company vehicle to provide timely delivery and pick-up of over 300 packages and documents around the Greater Boston area.
- Assist the sales team by identifying and recruiting potential business to ship through Fedex's range of services.
- Record daily logs of vehicle information to track potential service repairs and to maintain safety standards.
- Interact with customers to determine legality of packages including special requirements for dangerous goods and international shipments.

### AmeriCorps Volunteer

August 2013 - June 2015

*City Year Boston, Boston, MA*

*Service Leader (July 2014-June 2015)*

- Coordinated with school staff, Boston Public Schools facilities, and corporate sponsors to implement 25 needed physical service projects in different schools and community centers.
- Chosen to present in front of 500+ attendees, at the annual gala, about my achievement's in service.
- Facilitated visioning sessions with service partners and clients to gain knowledge and implement essential and targeted projects.

*Corps Member (August 2013-June 2014)*

- Foster positive attitude towards arithmetic by organizing school wide math-based events.
- Tutored 23 seventh grade students to build positive relationships and reinforce classroom instruction.
- Met weekly with teaching staff to discuss student performance and to implement targeted academic initiatives.

## Education

---

**University of New Hampshire Coding Bootcamp**, Portsmouth, NH

September 2019

- An intensive 24-week course, through UNH Professional Development and Training, that develops the skills needed to build dynamic full stack web applications.

**University of New Hampshire**, Durham, NH

December 2015

- Bachelor of Arts in Sociology
- Minor in Justice Studies
